Statement of Acknowledgement

Each person seeking care in this clinic should understand that the practitioner is a naturopath, *not* a medical doctor. If medical diagnosis or treatment is required, it must be obtained from a licensed medical doctor.

Naturopathy uses non-invasive methods for the assessment of bodily dysfunctions and natural therapeutics for correction. The methods used in this clinic for assessment and therapeutics include nutrition, homeopathy, botanical medicine, hydrotherapy, detoxification techniques, and lifestyle modification techniques.

Each person must sign this document before any treatment will be rendered.

My signature acknowledges that:

- (1) I am in agreement with the commitments of this office and I agree to abide by the office and the financial policies outlined.
- (2) I understand that the practitioner in this clinic works within the Naturopathic scope of practice, is not a medical doctor and employs some methods which are not considered orthodox medical practice.
- (3) I understand that treatment here and/or referral to other health practitioners is based upon the assessment of the conditions revealed through personal history and interview, physical examination and laboratory testing.
- (4) I understand that failure to follow the recommended nutritional, exercise and treatment programs will undermine the expected results.
- (5) I am *not* an agent of any private, local, county, provincial or federal agency attempting to gather information without so stating my intentions.
- (6) I am accepting or rejecting this care of my own free will and choice.
- (7) I accept full responsibilities for any fees incurred during care and treatment and I agree to fully discharge this responsibility at the time of my visit, unless prior arrangements have been made.

I,statements. (To be signed in my office and witnessed by		stood, and acknowledge the above	
Statements. (To be signed in my office and withessed by	my office starry.
